MONTENEGRO LAUNCHED CONSTRUCTION OF 120 APARTMENTS IN KONIK

The Ministry of Labour and Social Welfare of Montenegro organized on 23 March 2016 a visit to the construction site in Konik, near Podgorica, where the construction works on 120 apartments have now started. The apartments will be inhabited by the most vulnerable Roma families from Camp Konik 1, with the status of Internally Displaced Persons (IDPs) from Kosovo or foreigners with permanent or temporary residence in Montenegro. The project should be finalised in the second half of 2017. Following the successful implementation of the project in Niksic, scheduled to be finalised in May this year and which will provide homes to 62 vulnerable families, this is the second RHP project being implemented in Montenegro.

In addition to the Minister of Labour and Social Welfare, Ms Zorica Kovacevic, the event was attended by Deputy Prime Minister Vujica Lazovic, Mayor of Podgorica Mr Slavoljub Stjepovic, as well as representatives of the RHP donor community, H.E. Mr Mitja Drobnic, Ambassador, Head of EU Delegation to Montenegro, H.E. Ms Margaret Ann Uyehara, Ambassador of the U.S.A. as well as H.E. Ms Gudrun Elisabeth Steinacker, Ambassador of Germany. The representatives of UNHCR and OSCE were also present at the site.

Minister Kovacevic expressed her gratitude to the donors for their understanding of the long-standing IDP problem in Montenegro and the region. She said that the whole country had become one big RHP construction site and that she was proud of what has been achieved in a year - the building in Niksic would soon be finished, Konik has been inaugurated today and in a short while, another RHP construction site would become active in Pljevlja.

The RHP project in Camp Konik 1 is part of a wider strategy for the closing of Camp, which also includes the construction of 48 apartments financed by the EU through IPA funds. These apartments were finalised last year and the keys were delivered to selected beneficiaries in December 2015.

MORE RHP BENEFICIARY FAMILIES MOVE INTO NEW HOMES

After nearly 20 years of living in dire conditions, several families in **Bosnia and Herzegovina** and **Serbia** were able to finally settle down in new or rehabilitated homes, thanks to RHP-financed pre-fabricated houses, building material packages and reconstruction assistance.

BENEFICIARY FAMILIES

The Tepsic family in Krnjesevci, Serbia, started to build a house 14 years ago on their own land plot. In October 2014, they received RHP -financed building material packages. One year later, the materials were installed and the house completed, allowing this family to restart their life under much better conditions.

Fehim Gondzic lives with his wife and three children in Olovo, located 50km north-east from Sarajevo, Bosnia and Herzegovina. The Gondzic family is one out of 20 families who got a durable housing solution thanks to the RHP last year. Their house was reconstructed, enabling Fehim and his family to finally settle down in their new home.

Another beneficiary family in Olovo that received housing assistance are brothers Ramiz and Asim Hasanagic. The two families have 9 members altogether, and for the past twenty years, they all lived together in the same small old house. Their new house is being reconstructed in the same place where their former one used to be located, before it was destroyed during the war.
