BACKGROUND

Over the past 20 years, Montenegro has provided shelter to displaced persons from Bosnia and Herzegovina and Croatia, as well as to internally displaced persons (IDPs) from Kosovo. While some of the displaced persons and IDPs have already integrated locally, many of them are still in need of durable housing solutions due to their extreme socio-economic vulnerability.

The Montenegrin Government has over the years constructed some 1 300 housing units with the support of international donors; however, this has not been enough to cover the needs. In 2011, Montenegro adopted the National Strategy for Durable Solutions for Displaced and Internally Displaced Persons, with special emphasis on the Konik area. The Strategy has created a framework for the permanent and sustainable resolution of displacement issues in Montenegro.

The Regional Housing Programme (RHP) in Montenegro aims to provide durable housing solutions to the most vulnerable displaced and internally displaced persons through local integration or within institutions of the social welfare system. Altogether, 681 housing solutions will be delivered under the sub-projects approved so far, to the benefit of over 2 000 most vulnerable persons.
